Public Notice

Pine Canyon Dam & Mathews Canyon Dam Master Plan

The Los Angeles District, U.S. Army Corps of Engineers (Corps), hereby informs the public of the initiation of the process to develop a Master Plan for Pine Canyon Dam and Mathews Canyon Dam. The public is invited to attend a public scoping meeting located at Caliente Elementary School located at 289 Lincoln St., Caliente, NV 89008 on December 06, 2023, from 4:00 p.m. to 6:00 p.m. The public scoping meeting will give an overview of the master planning process, provide instructions on how to submit comments, and provide an opportunity for the public to ask questions and provide feedback.

The Corps defines a Master Plan as the strategic land use management document that guides the comprehensive management and development of all recreational, natural, and cultural resources throughout the life of water resource development projects. A Master Plan is a vital tool produced and used by the Corps to guide the responsible stewardship of Corps-administered lands and resources for the benefit of present and future generations.

Key topics to be addressed at the public scoping meeting include land classifications; natural, cultural, and recreational resource management objectives; and recreation facility needs. **Public participation is critical to the successful development of the Master Plan.**

A 30-day public comment period will begin on November 23, 2023, and end on December 23, 2023. Public scoping meeting materials will be available by request. The Public Notice will be available at the following Los Angeles District website below:
