

# NOTICE

There will be an isolated power outage in your area on Oct. 23<sup>rd</sup> at 4AM coming back on at various times until 7AM to finish the underground conversion behind the Clover St. businesses.

The Lincoln County Power District employees will be physically working to take down overhead power services and switch to the underground services. This means if you own a business or live in the area immediately behind the business district, LCPD may be in your yard or on your building to accomplish this work.

We apologize in advance for the inconvenience.

For any questions or concerns please contact
